AN INVITATION

On behalf of the Conference Organising Committee, it is our great pleasure to welcome you to the 35th Australasian Joint Conference on Artificial Intelligence, being held in Perth, Western Australia in December 2022.

The 2022 AJCAI will have a strong focus on internationally leading-edge research that have direct industry application potential, providing unique insights to understand what opportunities are available to elevate your organisation's productivity to the next level.

A significant number of papers will be sought from Early Career Researchers (ECR) working on innovative AI research. We intend to strongly encourage PhD students and ECRs to attend and participate, contributing to the structure of the conference, as well as highlighting their research. To support these younger researchers, opportunities like bursaries, family assistance and travel allowances will be offered wherever possible. This provides a unique opportunity for industry to reach out to the next generation of the AI workforce.

Cross-discipline as well as cross-institutional collaboration will strengthen the potential research and development opportunities. Multiple networking opportunities will be organised to help facilitate this. Government, industry partners, the resource industry and others will be invited to collaborate and share insights. Hands-on applications and their development are key.

The conference's various networking opportunities will certainly help strengthen and spread the message on your company's commitment to cutting-edge AI research.

We invite you to review the opportunities outlined in this sponsorship prospectus and consider the benefits that your presence would deliver. In addition to the customary sponsorship packages, we are willing to offer bespoke opportunities. Please contact us directly if you have questions.

We look forward to welcoming you to AI2022.

Associate Professor Wei Liu
Conference Chair
The University of Western Australia

Professor Abdul Sattar
Conference Chair
Griffith University
